Erasmus song

When we look at the world we could
despair
There is violence and bloodshed
everywhere
But we're the children who can change
it,
Working hard because we love earth and
bring joy to everyone.

We are all Erasmus kids
and we will always be one
Don't pretend you never knew how to
use, reduce, recycle and stay green, put
it in the bin.

As sure as ships sail the sea there's no
gap with you and me;
So we all will work together to stop
climate change in weather:
This could be a reality.

We will always stay together side by side,
Working hard to live forever in the light.
We can make the planet better
If we all respect each other and make
earth a friendly place

We are all Erasmus
And we will always be one.
Despite race, belief or colour
We will be friends forever and make sure
we save the earth

We are all Erasmus kids
and we will always be one.
Despite languages and cultures
We can understand each other
And make friends with everyone!

WE ARE READY!!!

April 4 Our journey starts

In the morning we went by bus to the Vilnius airport. We did not do much because it was early. So we arrived at the airport and waited for the check-in. After we went through the check-in and went to our gate, we had some free time. And finally we were on the plane. It was a fun flight and it didn't take too long. When we got out of the airport, we drove with a bus to the camp. The camp looked pretty good, we went to our rooms and then had some free time, dinner and time to settle in and meet the others. Then we went to sleep. In the middle of the night some other project partner countries arrived.

See you later, alligator.

The 1st day: Nice to meet you too. ;)

At our first day we got up at about 7 o'clock. For breakfast we had multiple choices. There were some bread, meat, cheese, nutella, cereal, milk and tea. After that, they announced the color groups. There were blue, yellow, pink, green and red. We created some camp rules then. Later, we made our camp T-shirts, caps and went outside to take a photo. After, in our groups, we played some fun games and second language class, where we learned some basic words or phrases from that language. Then we had lunch and went to pick the melody for our 2016 camp anthem. Lithuanians won. We had some dinner. filled the booklets and had some free time. The first day was really fun.

No time for lazy bones to relax.
Energising activity almost every single morning.

T-shirts and caps are in progress.

A journey to the mountains

It was a journey to the mountains after a quick break we used the excavator to get to the top. When we were up there we saw a huge lake. It is called Lago Santo.

Thursday 7th April: Red Cross

In the morning everyone was going to the yard to energize. Then we had English and Italian lessons. *In the afternoon* every group was taking pictures of environment. Then again in groups we were making the lyrics for Erasmus+ song. *In the evening* we had first aid activities and everyone tried to keep a “human” alive. Then we got awards. It was really funny when Red Cross workers tried to read our names.

Friday 8th April - Parma: delicious ice cream and yummy Italian pizza

Parma is a town where the main attractions are such as Cathedral, Duke park, theater. There are a lot of shops. We visited an old-fashioned theater. Also, we didn't leave Parma not tasting delicious ice cream and pizza. In fact, the pizza was delicious, we ordered all kinds and then we went to eat ice creams. They were very refreshing. The impressions of Parma were very good!!!

April 9 th

After Saturday breakfast, we went outside, to choose the best lyrics for Erasmus+ song. Later, we with our color groups learned other languages like Greek, German, French, Italian, Spanish. Then we went to have our lunch and played drama games. After drama games we had some free time. Later everyone went to learn an Italian dance "Pizzica". Then we had some time to prepare our Lithuanian food table for international evening. Each country showed their traditional dances or songs. Surprisingly, we had energy for the disco party .

Full of Action!!!

Sunday 10th, April

Morning in the mountains, evening - On the stage!

In the morning we were climbing into a big mountain. It was really exhausting, because the mountain was steep, but we didn't give up and climbed to the top of it. Today we started to create our Eco play. Everybody created their play scripts, had their roles and prepared some dances.

It was a very sunny and hot morning. That day we were going to have a trip to PISA.

The trip to PISA was very tiring to some of the pupils but we finished it all. It was very impressive to see it. It is a big leaning tower. Now it is a new world miracle.

It was one kind of experience. It was a very very very nice day.

Tuesday 12th April

- For breakfast (like always in the morning) we had a free choice what to eat. There was some cereal with milk, croissants, pie and bread. After that we had an energizing activity, then English games and the second language classes in our international groups. Later, we sang the final Erasmus 2016 song.
- For lunch we had pasta and for dessert chocolate cake. After that we walked to a school nearby and were playing football with the local kids.
- For dinner we had some rice and meat, for the dessert chocolate cake and pie. Then we performed our plays in our international groups. Later we had karaoke. It was fun. Then we went to sleep.

Playing football with Corniglio school kids.

One of our international group's play

It was a good sunny morning. We were going to the cheese factory , solar energy plant and hidroelectric station. The trip was very long and exciting. This day was not so difficult but at the same time it was, as we were very tired.
We give a plus for one more day on the camp.

Thursday 14th April – The last day and time for a farewell party

Thursday was the last day on the camp. We had really funny and interesting sport competition. As this day was the last so everybody went to pack their luggage. In the evening we had a Farewell party where every participant was awarded with a certificate. Then we had a disco and of course we went to say goodbye to our friends. It was sad, because there would be a little chance that someday we would meet.

Our Lithuanian group went to sleep earlier, because we together with the Greeks left the camp at 4 am. We were ready to go back to our homeland LITHUANIA safe and sound.

We are all Erasmus kids and we will always be one.
Despite race, belief or color we will be friends forever
and make sure we save the earth.
